April 4, 2022

Dear President Heffner and Members of the City Council:

Today, I present a balanced budget for the City of Burton's fiscal year 2022-23, which is the third balanced budget that I have proposed as Mayor. This balanced budget is significant as we celebrate our city's fiftieth anniversary. With all the unforeseen anomalies that have been put in our way, we continue to move forward. My Administration still understands the importance of implementing our vision to move our city forward and continuing to build on the changes I promised to our residents. We all understand the importance of presenting a balanced budget that still maintains essential city services without putting extra cost on our taxpayers, while making great strides in paying down debt and underfunded liabilities. This budget continues to show our city's great progress.

I am very proud to be proposing a balanced budget for three consecutive years. My staff and I went in depth to make sure our city is continuing to run lean and effective by looking into any inefficiencies and finding cost savings that will better our city financially. We have continued these cost saving measures and as a result, this budget grows our General Fund balance for the third year in a row. These savings were achieved in part, by the continuance of consolidating job positions while maintaining high efficiencies in every department within the city. The financial approach that I have taken has been proven effective to rebuild the financial stability of the city. My position will continue to remain steadfast on financial growth to better our city.

With all of the adversities that have been continually going on day to day, our city has great things happening. This is all possible by us working together and being transparent through every process. I am very excited to work with City Council on how we can use the American Rescue Plan monies that our city will be receiving. Working together with all of our great ideas and putting them into action will accomplish great things that will help fast track our city's needs. Our city still faces challenges, but with our proactive approach over the last couple of years, we are trending in the right financial direction. This is particularly true with our OPEB and MERS liability. Our MERS pension is continually trending in the positive with current assumptions because of the proactive measures taken with employee contracts and paying the additional one

million dollars to address the unfunded liability. I am also very proud of the progress made on our unfunded OPEB liability. With us all working together, this will be the third consecutive budget that we will be paying an additional amount towards our OPEB unfunded liability. With us being aggressive towards our unfunded liability in both the MERS and OPEB, it has taken our city out of the criteria of having a corrective action plan required by the State Treasury. These are major financial improvements that I will stay on top of to help reassure that we can continue to foresee any financial adjustments to be made.

We are in constant conversations with different developers and businesses trying to encourage growth for our city. We are having residential growth with new homes being built in subdivisions that were underdeveloped during the housing crisis. We have a new 80 unit assisted living facility on Center Road that is in the process of being built. Additionally, we will continue to work on funding to improve our roads. This year we not only have major road projects getting done which include; Maple Road and Belsay Road, but we also have local streets which include Parkwood, Bergin and Maplewood Meadows subdivision with hopes of being able to get more local streets included either through the match program or our preservation projects. There is extra funding that has been added to street preservation. With this extra funding, we are planning to get streets repaired in our neighborhoods. As challenging as this may be, it is a situation that needs our full attention. Due to limited revenues for our local streets, they have only been maintained to the level of finances available and not to the level of need. Knowing that all roads are a high priority, local streets become even more difficult because of the limited revenue available. As always blight is a top priority within our city. We are working hard with our local prosecutor and court to be able to enforce our ordinances which is still problematic due to the backup in the courts because of the pandemic.

Our Census numbers came in lower than we had hoped they would. Our overall population has declined per the Census, with a population of 29,715 which is 284 residents less than ten years ago. With our population decrease, so will our revenue sharing from State and Federal sources. This decline shows the importance of needed growth in our city and this administration is focusing on improvements to our city to attract businesses and new development.

The city is seeing improvements on our once declining property values and lost revenue that has hit not only our community but throughout Genesee County. The increases are gradual due to the constitutional limitations that significantly slow revenues from keeping pace with the rise in property values. I encourage all of us to stay engaged with our elected officials on the State and Federal levels to assure that our city receives the tax dollars that are needed so we can maintain and improve our roads, water and sewer infrastructure, and provide needed services to our residents and businesses.

As Mayor, I have made it a top priority to fully examine the city's financial position in every area of the budget. As a taxpayer, I understand the financial struggles that some of us may have to endure and that's why I want City Council to be completely confident, that we have explored and implemented all cost saving measures. Doing so will help keep our taxes low while still providing the level and quality of service Burton residents have come to expect. I am also very proud that working with City Council, we were able to reduce water rates and still maintain a positive balance. We continue to monitor the progress of our water bills and funds to stay informed so our city will not have to endure massive increases that we saw in 2019.

Lastly, I would like to thank our Controller, Jodi Holbrook, for spending numerous hours preparing and implementing my vision in preparing this proposed budget. I would also like to thank all my Charter Five and department heads for the diligence and leadership, as well as the entire workforce for their input.

In closing, I want to thank our citizens for putting their trust in me to build a balanced budget that will bring progress and prosperity to all sectors of our community. I am confident the fiscal year 2022-23 proposed budget reflects the shared vision and commitment of City Council, my Administration and most importantly, the residents of our great city.

Sincerely,

Duane Haskins  
Mayor

DUANE HASKINS  
Mayor

To: Burton City Council

From: Jodi Holbrook, Controller

Subject: 2022-2023 Proposed Budget

Honorable City Council Members,

Today, Mayor Haskins and I submit the Mayor's proposed budget totaling \$45,221,798 for Fiscal Year July 1, 2022 through June 30, 2023 (see the attachment for a summary by fund).

Please find herein an estimate of the figures for the current year and a proposed budget for the upcoming year. The administration used a combination of methods to develop this budget. There are many variables that can cause changes to what we have proposed. This is why the City uses budget amendments during the year to handle unforeseen events or newly developed plans.

While there are still challenges, the City has focused and worked diligently to face the challenge of providing excellence in service with limited resources. Our challenges consist of:

1. Increasing legacy costs for retiree health and pension.
2. Infrastructure improvements for roads, bridges, and sewer systems.
3. Internal infrastructure improvements and repairs for City properties (ie parking lots, sidewalks, curbs, roofs, and bathroom updates).

The FY 2022-23 budget includes funding for 91 full-time positions. The budget also includes funding the part-time and/or contract positions of Senior Center Driver, Building Inspector, Code Enforcer, 7 Council members and 40 part-time firefighters.

In November 2013, registered voters in the City passed a 6.5 mill police millage. The primary goals of the millage were to get the police department back up to 36 officers, to

free up funds in the general fund for match money for roads, to pay down pension and OPEB liabilities, add key personnel, and fund various other infrastructure projects. Four years ago, we increased our general fund transfer to fund 40 officers. Last year, we budgeted for 37 officers, including one GAIN officer position and one FANG officer position, for which we will receive a 60 percent cost reimbursement from the county. Those positions are included in the 91 full-time position count.

Salary and benefits for staff who perform work for several departments have been allocated to that respective department by one of the following: number of staff, percent of budget, estimated time, or another reasonable methodology depending on the position. These salaries, labeled as "Shared Salaries" in the budget, have had minimal changes for this year. The MERS cost allocation has been updated for the 2022-2023 budget to more evenly distribute costs to all departments which is reflected in the fringe rates, and includes all employees without regard to their defined MERS group.

Our taxable value increased by 4.2 percent for the 2022 tax year. This increase will generate approximately \$111,295 more in tax revenue for the general fund, \$228,679 for the police fund, and \$25,358 for the fire fund. The city is subject to a Headlee millage reduction this year. The current estimations are based upon preliminary calculations, using the Headlee reduction for 2021. A final determination will be made in late May or early June when we receive the tax computations from Genesee County. The City hit the low mark in taxable value during the real estate market decline in 2014-15 and the recovery had been incredibly slow. Construction has picked up increasingly the past couple years and has continued, despite the slow economy and global pandemic. The taxable value chart included in the chart section after the index shows the taxable value history for the past 10 years. While we have not yet reached the 2010 real property taxable value of \$773,547,019, we did see a taxable value increase of \$33,621,840 totaling \$683,615,978 projected for the tax year. The FY 2022-2023 budget assumes a general fund tax levy rate of 4.000 mills. If we were to levy the full millage rate of 4.6872 mills, the general fund would have an additional \$439,484 to fund projects.

Salaries have been budgeted according to current employee bargaining agreements for all bargaining units. Retirement expenditures have been budgeted at the rates provided by MERS. OPEB expenditures were previously budgeted with an increased \$300,000 contribution. For the second year, we are budgeting the \$300,000 contribution plus an additional \$100,000 towards the OPEB liability. The additional \$1 million that City Council has approved for submission to MERS each December, since 2014, with the exception of 2017-18 where \$976,000 was contributed, has been included in the budget. The City has reached a point in the OPEB funding to no longer require a Corrective Action Plan.

The City's last audit included more information required by the Governmental Accounting Standards Board (GASB) with regard to pension and other post-employment benefits (OPEB). As you know, the City was required for the seventh year to show the entire liability for the pension plan on the government-wide financial statements. Likewise, the enterprise funds (water and sewer) were required to reflect the net pension liability on the management level financial statements. Though we did have to file a corrective action plan for the Motor Pool Fund in 2021-2022, we did create a plan with an immediate resolution and do not anticipate the need for that in the 2022-2023 fiscal year. The City was required to report the liability for retiree health, also known as Other Post-Employment Benefits (OPEB), for the fifth time.

Our customer base of water and sewage usage is slowly increasing due to new construction. Phase Five of the Drinking Water Revolving Fund (DWRf) project was completed during the 2019-20 fiscal year. This was the fifth phase of the water improvements to the south end (water tower district) of the City. These low-interest loan options are greatly needed to fund infrastructure improvements. In the past five years, the City has received \$2.6 million in SAW and S2 grants to fund sewer infrastructure projects and \$22 million in DWRf grants to fund water infrastructure projects. Of this \$22 million, approximately \$2.8 million has been labeled as "loan forgiveness" by the State and does not have to be paid back. Since the completion of the five phases in water infrastructure, the sewer infrastructure will now be addressed. Currently, we have completed one phase and have four more phases planned over the next five years. These projects will ensure residents the adequate infrastructure needed to meet their needs.

Three new funds were added in the 2022-2023 proposed budget. The first is fund 2066 Federal Drug Law Enforcement Fund. It is required that our state and federal forfeiture monies remain separate and this change allowed for fund 2065 to change to the State Federal Drug Law Enforcement Fund. This change ensures our compliance with this stipulation. The second two funds are in relation to the special assessment for Maplewood Meadows paving; and they are funds 3147 and 4147.

Community Development Block Grant (CDBG) funding in the amount \$18,048 for Senior Center Operations, and \$443,994 for Local Streets has been included in the FY 2022-2023 budget.

The self-insurance fund accounts for the health insurance costs for employees and retirees of the City with charges to each department for its respective cost. Health insurance rates have been budgeted at an increase of approximately 5% to the City.

The information technology (IT) fund consists of the expenditures related to the IT Director and technician, supplies, contractual services, and depreciation. The fund

allocates costs across City departments as it is an internal services fund. By centralizing the IT function, cost savings can be realized by buying like products (standardization) and purchasing in large quantities (volume price savings). The end of the 2021-2022 fiscal year is also the end of our 3-year lease on computers and monitors. For the 2022-2023 fiscal year, the IT Department will have transitioned from leasing to purchasing all computers. The 47 computers already owned by the city will also be added into a planned phase of replacement. New this year, the IT budget also assumes 100% cost of the IT assistant and all fringes. This change allows us to fully see our total costs of the IT Department, and also allows for a fixed rate for all other departments.

In the 2022-2023 fiscal year, we have 2 new GASB implementations and a State of Michigan change that we are focusing on. The first is simple; instead of a Comprehensive Annual Financial Report (CAFR), the end of the year report is now referred to as the Annual Comprehensive Financial Report (ACFR). The second is GASB 87, in regards to leases and capitalization of a lease when required. The outcome will be minimal to us and any changes will be highlighted in our ACFR review. Lastly is the State implementation of the Uniform Chart of Accounts. The timing was a difficult decision and we determined it would be best to present the budget with account numbers that everyone is familiar with, release a crossover sheet and new budget in relation to the new general ledger account numbers, and then finally report with the new account numbers.

These budgeted numbers were compiled utilizing the most recent projections of revenues and expenditures available.

I welcome the opportunity to answer your questions and look forward to working with you over the coming weeks. Thank you to the department staff for their significant contributions to the development of this document, especially in my office; for all of the help and extra support while I worked so diligently on the proposed forecasts and needs. I would also like to add a special thanks to Mayor Haskins, for the trust and understanding in me and my position here. It is great working with a Mayor that takes cost savings and transparency as seriously as I do.

Respectfully submitted,

Jodi Holbrook  
Controller

# Tax Millage

July 1, 2022 - June 30, 2023

General Operating	4.000 mills	(maximum allowable millage levy is 4.6872)
Police Levies	8.4425 mills	
Fire Levy	.9947 mills	
Property Tax Administration Fee	1%	

The general operating millage, extra voted police levies and extra voted fire levy millage rates are separated into two categories in conformance with PA 5 of 1982, as amended, commonly referred to as truth in taxation. At this time, based on the facts available, the change in anticipated state equalized value for this year will be the result of new construction and/or local market adjustments. Further, based upon the facts available, the change in taxable value will reflect physical changes to property, changes in taxable status and/or application of the constitutionally allowable inflation rate adjustment. Final determination of equalized and taxable valuations will be made by the end of May 2022. Provisions for truth in budgeting and any "Headlee" considerations, as required, will be finalized during the first week in June for proper implementation of the summer 2022 tax bills.

\*Millage rates include a Headlee Rollback from last year. This year is expected to be more.
